Authorised Representative

Notes to the separate financial statements for the nine-month period ended 30 September 2020

Form B 09a - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

These notes form an integral part of and should be read in conjunction with these accompanying separate financial statements.

1. Reporting entity

(a) Ownership structure

Masan Consumer Corporation ("the Company") is a joint stock company incorporated in Vietnam.

(b) Principal activities

The principal activities of the Company are to trade in food products; trade in non-alcoholic drinks and mineral water; advise and execute trade promotion activities and provide architectural and related technical consultancy services under the Enterprise Registration Certificate No. 0302017440 issued by the Department of Planning and Investment of Ho Chi Minh City ("DPI") on 31 May 2000 and its amendments.

(c) Normal operating cycle

The normal operating cycle of the Company is generally within 12 months.

(d) Company structure

As at 30 September 2020, the Company had 1,210 employees (1/1/2020: 1,238 employees).

2. Basis of preparation

(a) Statement of compliance

These separate financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises and the relevant statutory requirements applicable to financial reporting.

The Company prepares and issues its consolidated financial statements separately. For a comprehensive understanding of the consolidated financial position as at 30 September 2020 of the Company and its subsidiaries (collectively referred to as "the Group"), their consolidated results of operations and their consolidated cash flows for the period then ended, these separate financial statements should be read in conjunction with the consolidated financial statements of the Group for the period ended 30 September 2020.

(b) Basis of measurement

These separate financial statements, except for the separate statement of cash flows, are prepared on the accrual basis using the historical cost concept. The separate statement of cash flows is prepared using the indirect method.

Notes to the separate financial statements for the nine-month period ended 30 September 2020 (continued)

Form B 09a - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(c) Annual accounting period

The annual accounting period of the Company is from 1 January to 31 December. The separate financial statements are prepared for the nine-month period ended 30 September 2020.

(d) Accounting and presentation currency

The Company's accounting currency is Vietnam Dong ("VND"), which is also the currency used for financial statements presentation purposes.

(e) Corresponding figures

The corresponding figures as at 1 January 2020 were brought forward from the audited figures as at 31 December 2019.

3. Summary of significant accounting policies

The following significant accounting policies have been adopted by the Company in the preparation of these separate financial statements.

(a) Foreign currency transactions

Transactions in currencies other than VND during the period have been translated into VND at rates approximating actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the average of the account transfer buying rate and selling rate at the end of the annual accounting period quoted by the commercial bank where the Company most frequently conducts transactions.

All foreign exchange differences are recorded in the separate statement of income.

(b) Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

Notes to the separate financial statements for the nine-month period ended 30 September 2020 (continued)

Form B 09a – DN
(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(c) Investments

(i) Held-to-maturity investments

Held-to-maturity investments are those that the Company's Board of Management has the intention and ability to hold until maturity. Held-to-maturity investments include term deposits at banks. These investments are stated at costs less allowance for doubtful debts.

(ii) Investments in subsidiaries

For the purpose of the separate financial statements, investments in subsidiaries are initially recognised at cost which includes purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, these investments are stated at cost less allowance for diminution in value. An allowance is made for diminution in investment value if the subsidiary has suffered a loss, except where such a loss was anticipated by the Company's Board of Management before making the investment. The allowance is reversed if the subsidiary subsequently made a profit that offsets the previous loss for which the allowance had been made. An allowance is reversed only to the extent that the investment's carrying amount does not exceed the carrying amount that would have been determined if no allowance had been recognised.

(iii) Trading securites

Trading securities are bonds held by the Company for trading purpose i.e. purchased for resale with the aim of making profits over a short period of time. Trading securities are initially recognised at cost which include purchase price plus any directly attributable transaction costs. Subsequent to initial recognition, they are measured at cost less interest income for the period before investment acquisition date and allowance for diminution in value. An allowance is made for diminution in value of trading securities if market price of the securities item falls below its carrying amount. The allowance is reversed if the market price subsequently increases after the allowance was recognised. An allowance is reversed only to the extent that the securities' carrying amount does not exceed the carrying amount that has been determined if no allowance had been recognised.

(d) Accounts receivable from customers and other receivables

Accounts receivable from customers and other receivables are stated at cost less allowance for doubtful debts.

(e) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined on a weighted average basis and includes all costs incurred in bringing the inventories to their present location and condition. Cost in the case of finished goods and work in progress includes raw materials, direct labour and attributable manufacturing overheads. Net realisable value is the estimated selling price of inventory items, less the estimated costs of completion and direct selling expenses.

The Company applies the perpetual method of accounting for inventories.

Notes to the separate financial statements for the nine-month period ended 30 September 2020 (continued)

Form B 09a - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(f) Tangible fixed assets

(i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition for its intended use. Expenditure incurred after tangible fixed assets have been put into operation, such as repair, maintenance and overhaul cost, is charged to the separate statement of income in the period in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

(ii) Depreciation

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

leasehold improvements
 office equipment
 machinery and equipment
 motor vehicles
 3 - 5 years
 3 - 8 years
 3 - 7 years
 3 - 7 years

(g) Intangible fixed assets

(i) Software

Cost of acquiring a new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software costs are amortised on a straight-line basis over their useful lives ranging from 4 years to 10 years.

(ii) Brand name

Cost of acquiring a brand name is capitalised and treated as an intangible asset and is amortised on a straight-line basis over 10 years.

(h) Construction in progress

Construction in progress represents the costs of construction and machinery which have not been fully completed or installed. No depreciation is provided for construction in progress during the period of construction and installation.

Notes to the separate financial statements for the nine-month period ended 30 September 2020 (continued)

Form B 09a - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(i) Long-term prepaid expenses

Tools and supplies

Tools and supplies include assets held for use by the Company in the normal course of business whose costs of individual items are less than VND30 million and therefore not qualified for recognition as fixed assets under prevailing regulation. Cost of those assets are amortised on a straight-line basis over a period ranging from 2 years to 3 years.

(j) Accounts payable to suppliers and other payables

Accounts payable to suppliers and other payables are stated at their costs.

(k) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(l) Equity

(i) Share capital and share premium

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of ordinary shares, net of tax effects, are recognised as a deduction from share premium. The excess of proceeds from issuance of shares over the par value of shares issued is recorded as share premium.

(ii) Treasury shares

When issued ordinary shares are repurchased, the amount of the consideration paid, which includes directly attributable costs, net of any tax effects, is recognised as a reduction from equity. Repurchased shares are classified as treasury shares under equity. When treasury shares are sold for reissue subsequently, cost of the reissued shares is determined on a weighted average basis. Any difference between the amount received and the cost of the shares reissued is presented within share premium.

Form B 09a – DN (Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(m) Taxation

Income tax on the separate profit or loss for the period comprises current and deferred tax. Income tax is recognised in the separate statement of income except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the period, using tax rates enacted at the end of the accounting period, and any adjustment to tax payable in respect of periods.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using tax rates enacted or substantively enacted at the end of the accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(n) Revenue

Sale of goods

Revenue from sale of goods is recognised in the separate statement of income when the significant risks and rewards of ownership have been transferred to the buyer. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due or the possible return of goods. Revenue from sale of goods is recognised at the net amount after deducting sales discounts stated on the invoice.

(o) Financial income and financial expenses

(i) Financial income

Financial income mainly comprises interest income from deposits at banks, interest income from loans and profits distributed by subsidiaries, interest income from other investing activities and foreign exchange gains.

Interest income is recognised on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

Profits distributed by subsidiaries are recognised when the right to receive profits distributed by subsidiaries is established. Distributed profits which are attributable to the period before investment acquisition date are deducted from the carrying amount of the investment.

N.Y.

Masan Consumer Corporation Notes to the separate financial statements for the nine-month period ended 30 September 2020 (continued)

Form B 09a – DN (Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

(ii) Financial expenses

Financial expenses mainly comprise interest expense on borrowings and foreign exchange losses.

Borrowing costs are recognised as an expense in the period in which they are incurred, except where the borrowing costs relate to borrowings in respect of the construction of qualifying assets, in which case the borrowing costs incurred during the period of construction are capitalised as part of the cost of the assets concerned.

(p) Operating lease payments

Payments made under operating leases are recognised in the separate statement of income on a straightline basis over the term of the lease. Lease incentives received are recognised in the separate statement of income as an integral part of the total lease expense.

(q) Related parties

Parties are considered to be related to the Company if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or whether the Company and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.

Related companies refer to the parent company, the ultimate parent company, and their subsidiaries and associates.

4. Cash and cash equivalents

VND	VND
276,989,932	223,439,876
50,532,181,382	14,743,693,086

Masan Consumer Corporation Notes to the separate financial statements for the nine-month

Notes to the separate financial statements for the nine-month period ended 30 September 2020 (continued)

Form B 09a - DN

(Issued under Circular No. 200/2014/TT-BTC dated 22 December 2014 of the Ministry of Finance)

21. Share capital, treasury shares and share premium

The Company's authorised and issued share capital are as follows:

	30	0/9/2020	1/	1/2020
	Number of		Number of	
	shares	VND	shares	VND
Authorised and issued	share capital			
Ordinary shares	726,793,818	7,267,938,180,000	722,924,604	7,229,246,040,000
Treasury shares				
Ordinary shares	18,000,000	1,640,252,631,255	18,000,000	1,640,252,631,255
Shares currently in cir	culation			
Ordinary shares	708,793,818	7,087,938,180,000	704,924,604	7,049,246,040,000
Share premium		3,710,767,704,992		3,555,999,144,992

All ordinary shares have a par value of VND10,000. Each share is entitled to one vote at meetings of the Company. Shareholders are entitled to receive dividends as declared from time to time. All ordinary shares are ranked equally with regard to the Company's residual assets. All rights of shares bought back by the Company are suspended until those shares are reissued.

Share premium represents the excess of the proceeds on issuance of shares over their par value.

Movements of shares currently in circulation during the period were as follows:

		For the nine-mor	nth period ende	ed
	30	0/9/2020	30	/9/2019
	Number of shares	Par value VND	Number of shares	Par value VND
